

NOISE FOR NOW

5 YEAR REPORT
2017-2022

Opera Concert Photos courtesy of Kate Russell

When we started NOISE FOR NOW, our vision was to create benefit concerts throughout the US in partnership with musicians passionate about Reproductive Rights and abortion access. Our goal was to create opportunities for music fans to connect with their local organizations providing and protecting Reproductive Healthcare.

Five years and one international pandemic later, our organization has grown and diversified, taking us places we never could have imagined. Being small and nimble, we were able to quickly pivot to social media campaigns when live music was on hold. This allowed us to expand the network of musicians we work with, and allowed us to make inroads with actors, athletes and artists. We've created a comprehensive resource page on our website, which hosts the only map in existence of that lists every vetted abortion clinic and abortion fund in the US. The resource page also shares crucial information about abortion pills and how to spot a fake clinic, or Crisis Pregnancy Center. We made cards and stickers with a QR code pointing to our resource page and have distributed over 50,000 to touring musicians to make available for their fans at the merch table. We've created valuable and lasting relationships with partner organizations in the field, and have been invited to join national coalitions including Liberate Abortion and Abortion On Our Own Terms. Our dedication to uplifting local-level orgs by leveraging the platforms and voices of public figures is unique in the field- a fact that our partner organizations regularly confirm. In just five years, NOISE FOR NOW has become an organization that is regularly listed alongside giants in the field like Planned Parenthood and National Network of Abortion Funds. It has been an inspiring and humbling journey to work with and learn from our incredible partners in the Reproductive Justice movement.

With the fall of Roe, our work is more urgent than ever. We've come a long way in a very short time, but we have so much farther to go. We are ready to take on this generational fight, and we need you with us.

Thank you for supporting our work.

In Solidarity,

Amelia Bauer, Executive Director

Samantha Kirby Yoh, President of the Board of Directors

“Working with NOISE FOR NOW has been both a pleasure and incredibly impactful to our community. NOISE FOR NOW understands the role that independent clinics play in abortion access in the U.S. and has been pivotal in spreading the word and increasing awareness of these essential community clinics. Their ability to connect with a wide variety of artists and musicians to support abortion care has been absolutely essential to keeping independent abortion clinics open!”

Brooke Thompson, Director of Development,
Abortion Care Network

MISSION

NOISE FOR NOW is a national initiative that enables artists and entertainers to connect with and financially support grassroots organizations that work in the field of Reproductive Justice, including abortion access. NOISE FOR NOW is the link between touring musicians, progressive promoters, athletes, artists and local reproductive rights organizations in cities across the country.

Reproductive health care services, including access to legal abortion, are under attack. By organizing benefit events and campaigns, NOISE FOR NOW provides opportunities for artists and entertainers to use their talents to raise money and send a clear message that Reproductive Rights are human rights.

*PERFORMED AT A NOISE FOR NOW EVENT

“The National Network of Abortion Funds couldn’t be more grateful to partner with NOISE FOR NOW in raising funds and awareness for the critical work abortion funds are doing. Because of Amelia’s laser-sharp, whip-smart, on-point focus on groups on the ground who are making abortion access possible in real time, grassroots abortion funds have been able to build an active base of new supporters, and strengthen the work they do as need for their services continues to skyrocket. Amelia saw it coming, jumped into action to meet a cultural need, and navigates these choppy waters alongside us. The role of music and culture in changing the narrative around abortion is of the utmost importance; when we are loud and proud about our support for abortion, we change the world. We know culture change works, and NNAF couldn’t be prouder to benefit from the critical work NOISE FOR NOW is doing.”
